Hi Eva,

Attached is DEQ's revised, final source control decision for the Christensen Oil site located at 3821 NE St. Helens Road in Portland.

EPA provided review comments in a September 29, 2015 email on DEQ's draft source control decision for site. The final source control decision has been updated in response to the EPA comments. We weren't planning on sending you a hard copy of the final source control decision, but can if you so request. Please call or reply with any questions.
